NAPS Advocacy Call to Action

Tell Congress to Not Cut Mail Delivery to Bail Out the Highway Trust Fund

NAPS urges all members to [send a message](#) to their Member of the House of Representatives opposing House Oversight Committee Chairman Darrell Issa's [new plan](#) to reduce delivery of most mail from six days to five days, and then use the alleged "cost savings" to fund the shortfall in the Highway Trust Fund, a program that is funded by fuel taxes.

To quickly send a message to your House lawmaker opposing the plan, please [click here](#). It will take less than 30 seconds of your time.

NAPS opposes the proposal, and its position statement is [here](#). Now we need NAPS members to alert their House Members to this dangerous proposal.

Congress should look at alternatives to replenishing the Highway Trust Fund that do not harm the Postal Service.

Please reach out to your House Member and urge their opposition to this "Stamp Tax." It's time we end these Congressional shell games.
