Dear Brian:

As a matter of general interest, on July 12, employees from Zebra Technologies will observe a city letter carrier from the Holbrook, New York Post Office perform his/her street duties. Zebra Technologies is the company that creates software for the Intelligent Mail Device. The purpose of the observation is to familiarize the company with tasks performed by city letter carriers.

Representatives from Zebra Technologies will not be allowed to take pictures or video of the employee, and interactions with the city letter carrier will be limited.

Please contact Bruce Nicholson at extension 7773 if you have questions concerning this matter.

Sincerely,

A handwritten signature in black ink, appearing to read "Alan S. Moore".
